

HyperActive Technologies is the leader in providing "intelligent" drive-thru and predictive kitchen management solutions for the QSR industry. Our solutions serve you better because they are smarter. We build them with your goals in mind. Our solutions deliver advanced insight and knowledge to you with our innovative reporting capabilities and intuitive dashboards, giving you unprecedented vision into, and control over, your operation.

Examples?

QTimer[®], the ultimate drive-thru management solution with real-time POS integration. **HyperView**[®], the mercury-free, glare-free OCB with a lifetime warranty on the seal. **HyperActive Bob**[®], the world's only real-time, predictive kitchen manager.

Use one or two, or combine them into one powerful package. Then watch customer loyalty and profits head skyward in a big hurry.
