

Not all order confirmation systems are created equal.

There's one OCB that literally shines brighter than the rest: HyperView® from HyperActive Technologies. HyperView gives your customers a better look at what you have to offer, giving you a better chance to increase sales.

Hyper-visible

- LCD with white LED backlighting for an ultra-bright display
- Patented "optical bonding" virtually eliminates all glare and reflections
- Split-screen technology for longer up-selling time
- Content Editor with it's "drag and drop" feature makes image changes a breeze

Hyper-durable

- NEMA 4 Certified
- Lifetime Warranty on Seal
- Mercury-free, environmentally sound
- Processor is in the store and protected from the elements
- Operates without heaters or cooling fans to save you energy
- 10 year life span in temps from -40°F to +176°F

Brighten your profit

HyperView increases speed-of-service, order accuracy and customer satisfaction. And, more satisfied customers lead to more sales and higher profits.

With all of this outstanding value, and comparable pricing, it's no wonder that HyperView is quickly becoming one of the brightest stars in the QSR industry.
