

Answers you always wanted. Profits you never expected.

HYPERACTIVE'S
QTIMER

DRIVE-THRU

The more you know, the more profitable you can become. Which is the whole idea behind QTimer®, **the ultimate management tool for your drive-thru.**

QTimer's POS interface gives you unprecedented knowledge and control over your stores. Unlike other timers, QTimer not only tells you **what** is happening in your drive-thru but **why** it is happening – giving you the instant information you need to improve your performance... and your profits.

What can QTimer do for you?

- Real-time POS integration gives you a snapshot of the complete picture
- It enables your crew to focus on speed and accuracy by tracking and comparing performance towards goals
- It identifies problems so that you can take immediate action
- Its "above-store reporting" makes this information available to you anywhere and at anytime
- "Dynamic Drive-thru" metric speeds line by seeing order content from each vehicle in queue.

How does QTimer do it?

QTimer's ability to follow the flow of vehicles in your drive-thru and be integrated with your POS **provides you with answers that no other solution can provide.** Since our "Enterprise Reporting Portal" captures vital information in near real-time, you are able to gain an overall view of your entire organization's performance, whenever you need it.

Get QTimer and get better answers, higher efficiency, more profit.
